

Healing Chant

מה יקר חסדך אלהים

Mah yakar chasd'cha Elohim.

How precious is Your love, God. (Psalm 36:8)

Each of us is like a unique crystal through which the light and love of God might shine. This healing practice is done through the perception and amplification of that unique refraction of God-light. The person seeking healing lies down in the center of the circle and instructed to shine his or her unique light. The circle of healers then bring all of their attention to that unique light and shine it back to him or her through this chant. A healing field is created, and the person seeking healing is connected up with his or her own "blueprint of perfection".
